SECTION 1

INSTRUCTIONS TO RESPONDENTS

1.1 Introduction

The Lexington-Fayette County Health Department (LFCHD) is seeking proposals for an Electronic Health Record (EHR) and billing management system for LFCHD. LFCHD would like annual cost as well as cost to implement included in the proposal.

The process of accepting Proposals and choosing the successful respondent shall be by secure form submission. Requests for Proposals ("RFP's") using the competitive negotiation process under KRS 45A.370. LFCHD, if it chooses to award a contract based on this Proposal, shall do so on the basis of the Proposal which is most advantageous to it based upon the Evaluation Criteria set forth herein. (KRS 45A.370(5)).

LFCHD finds that a purchase through competitive negotiation is necessary because specifications cannot be made sufficiently specific to permit an award on the basis of either the lowest bid price or the lowest evaluated bid price.

LFCHD shall conduct written or oral discussions with all responsible proposers who submit Proposals determined in writing to be reasonably expectable of being selected for award, except as otherwise provided by law. Where LFCHD can clearly demonstrate and document from the existence of adequate competition or accurate prior cost experience with the particular supply, service or construction item, LFCHD may make an award on the basis of the original submitted Proposals.

1.2 Considerations Prior to Submitting a Proposal

1.2.1 Laws, Rules, and Regulations

1.2.1.1 The following laws, rules, and regulations are applicable to these specifications and Contractor shall comply with all requirements established therein in connection with the proposal and the performance of the Contract. Contractor agrees to execute any documents necessary to ensure compliance with the following laws, rules and regulations.

1.2.1.1.1 All local ordinances governing licensure for businesses.

1.2.1.1.2 All applicable safety regulations of the LFCHD and all applicable federal, state, and local laws, ordinances, rules and regulations.

1.2.1.1.3 All federal, state and local laws, ordinances, rules, and regulations regarding but not limited to hiring practices and payment of employees, supplies, and other withholding and payment of taxes.

1.2.1.1.4 Health Insurance Portability and Accountability Act of 1996 and similar state and federal laws.

1.2.1.2 Regardless of any proposed contract term or the terms of any contract actually awarded to Contractor, LFCHD does not waive any protection, assignment, immunity or waiver of any liability or fault caused by or related to the services to be provided pursuant to this request. Further, any agreement by LFCHD to any term is limited by any applicable federal or state law that may apply.

1.3 Proposal Submittal Requirements

1.3.1 All Proposals must be signed by a duly authorized officer, agent or employee of the Respondent. (See the "Request for Proposal Signature Page" document). Respondent promises that the individual signing the Proposal document for the Bidder has the authority to bind the Respondent.

- 1.3.2 Sealed Proposals will be accepted until 12/20/2023. LFCHD uses a web-based portal for accepting and evaluating proposals digitally (<https://www.lfchd.org/rfp>). Documents may be uploaded at any time during the open period. We strongly recommend that you allow sufficient time to complete uploading, submit and finalize your submission before the closing deadline.

If you have any technical questions related to your submission, please contact support at rfp.ehr@lfchd.org.

- 1.3.3 Proposals cannot be submitted after 5:00 pm 01/15/2024 EST.

- 1.3.4 Any inquiries about this RFP shall be addressed in writing to rfp.ehr@lfchd.org.

- 1.3.5 Changes, Clarifications, Errors, Addenda:

- 1.3.5.1 Should a prospective Respondent find a discrepancy in or omissions from the specifications or be unclear as to what the specifications mean, the Respondent shall notify LFCHD at rfp.ehr@lfchd.org. LFCHD will provide written clarification to all prospective Respondents. Respondent agrees that LFCHD will not be responsible for any oral instructions.

- 1.3.5.2 Clarification of Submittal: LFCHD may obtain clarification or additional information from a Respondent.

- 1.3.5.3 Changes/Alterations: Respondent may change or withdraw its Proposal at any time prior to Proposal closing date and time.

- 1.3.5.4 The Respondent must respond as required in this Proposal; failure to make any required response or provide required information may cause rejection of the Proposal as nonresponsive.

- 1.3.5.5 Once this Proposal has been signed by Respondent and officially submitted to LFCHD, Respondent will not be allowed to alter or withdraw its Proposal except with the written permission of the Finance Officer.

- 1.3.5.6 Addenda: LFCHD may issue an addendum, or addenda, changing some aspect of the Proposal. All addenda, if any, shall be considered in making the Proposal, and such addenda shall be made a part of this Proposal. Before submitting a Proposal, it is incumbent upon each Respondent to be informed as to whether any addenda have been issued, and the failure to cover in the Proposal any such addenda may result in disqualification of that Proposal.

- 1.3.6 LFCHD shall not permit a Respondent to withdraw its Proposal for sixty (60) days after Proposals are opened, unless LFCHD makes a specific exception in writing. Further, Proposal prices shall be firm for a minimum of six (6) months after the Proposal closing date.

- 1.3.7 LFCHD shall not be responsible for any cost incurred by the Respondent in the preparation of its Proposal.

- 1.3.8 If the award is divided among or between vendors, written notification will be given to each vendor of the specific items covered on their respective contracts.

SECTION 2

2.2 Project Objectives

- 2.2.1 The overall goal of this project is to take advantage of the newest technology and harness efficiencies by reviewing business processes or implementing technology to enhance existing business processes performed by LFCHD divisions. LFCHD is planning to implement a new system or combination of software systems, and to adopt systems functionality to support core processes. In doing so, LFCHD seeks to address several challenges in the current environment, and gain future efficiencies, including, but not limited to:
- 2.2.1.1 The current environment lacks efficient interfacing making it difficult to have up-to-date clinical decision making and quality of care, which has led to programs and clinics relying on a combination of point solutions, State databases, Red Cap databases, manual processes, paper charts and forms, and other various databases.
 - 2.2.1.2 Duplication, manual entry, and physical charts are causing business inefficiencies. The lack of integration between systems and/or a lack of reporting has resulted in staff entering information in Excel, paper-tracking logs, and rosters.
 - 2.2.1.3 There is a need to improve the amount, quality, and use of data collected. An EHR will help produce higher levels of data quality and integrity; and improve report accuracy. This will help the organizations that are required to analyze and submit data for report to funders and oversight bodies.
 - 2.2.1.4 An EHR system will provide an opportunity to LFCHD for review of how information is accessed, secured, shared and located throughout the LFCHD ecosystem. Providing enhanced ability to comply with HIPAA privacy, security rules, and compliance audits.
 - 2.2.1.5 There is a lack of robust reporting capabilities to support programmatic, clinical, and financial reporting needs. There is a need to have the ability to perform ad-hoc queries and generate canned reports, and to use business intelligence and analytic tools to inform decision making as well as trigger and generate report for grants management proactively.
 - 2.2.1.6 The lack of an enterprise-wide EHR solution has forced staff to manually track patient issued supplies, medications, vaccines, lab orders and results. LFCHD endeavors to identify a new solution that will help to enforce compliance with medical records retention, archiving and destruction in a centralized manner. LFCHD anticipates a EHR system will strengthen physical security controls for medical records, store legally-required forms, and signatures electronically.
 - 2.2.1.7 LFCHD seeks an EHR solution that will enhance registration capabilities to improve accuracy and completeness of demographic data capture. A system that will improve search functionality to reduce the likelihood of creating duplicate records, require data entry for key fields and support real-time eligibility verification.
 - 2.2.1.8 LFCHD has historically relied on state systems to support billing efforts. The new EHR solution should consolidate systems that support billing and accounts receivable, recover fees for services provided with third-party payors as well as Medicaid/Medicare, and automate notification of changes in status to Medicaid applications to allow for timely release of claims.

2.2.1.9 There is a need to standardize processes throughout the LFCHD ecosystem. LFCHD anticipates a new EHR will provide the opportunity to re-engineer and standardize business processes, with appropriate consideration given to unique clinic/programmatic needs.

2.2.2 In order to address these challenges and others, LFCHD has initiated a project to adequately plan for, select, and implement software systems environment. This RFP outlines the features and functionality desired in a future system(s), as well as the professional services necessary to implement that system(s). Attachment A to this RFP contains the detailed functional requirements for a future systems environment.

2.3 Functional Areas

2.4 Alternate Proposals, Partnerships and Proposers of Subsets of Functionality

2.4.1 Alternate Proposals:

- 2.4.1.1 Respondents may submit alternate Proposals for evaluation.
- 2.4.1.2 Respondents may submit multiple Proposals for evaluation. For example, if a Respondent offers one or more “branded” products that may meet the needs of LFCHD they are encouraged to separately propose each software package for consideration.
- 2.4.1.3 Software companies that deliver their solution through one or more consulting firms (system integrators) are also allowed to submit more than one Proposal for consideration through differing consulting firms.
- 2.4.1.4 A separate Proposal package submitted in accordance with this RFP is required in order for LFCHD to accurately evaluate each Proposal independent of the other.

2.4.2 Partnerships:

- 2.4.2.1 Respondents are encouraged to establish partnership relationships to fully provide all requirements defined by the RFP.
- 2.4.2.2 Respondents engaged in a partnership relationship shall submit a single proposal in response to this RFP.
- 2.4.2.3 Partnership relationships shall be clearly defined by proposal responses. Such definition shall identify the entity in the partnership relationship deemed to be the Prime Vendor. In the event a proposal that presents a partnership is selected, it is expected that a single contract be executed between LFCHD and the Prime Respondent, and the Prime Respondent be responsible for any contractual relationship with the proposed partner(s).
- 2.4.2.4 Each Vendor engaged in the partnership shall respond to any and all applicable portions of this RFP that relate to the work that will be performed, or the capabilities provided. For example, each Vendor shall provide references, and each Vendor shall respond to the Company Background and History questions.

2.4.3 Proposers of Subsets of Functionality:

- 2.4.3.1 As part of this process LFCHD will not be allowing Respondents to submit point solutions (best of breed), and encourages Respondents to participate in this process by developing partnerships where applicable or needed.

2.5 LFCHD and Project Staffing

- 2.5.1 LFCHD intends to have functional and technical resources available during Project implementation, though it is noted that LFCHD does not anticipate dedicating staff full-time to the implementation in addition to managing their core job responsibilities. This applies to both functional resources as well as technical resources internal to LFCHD. It is anticipated that some functional leads will serve as the functional lead, or a subject matter expert, across one or more modules during the implementation process. There will be a single point of contact for project management, either from staff or as a contracted asset.
- 2.5.2 Staffing considerations are a consideration for LFCHD in terms of both the implementation process as well as supporting the software once in an operations mode. Respondents are encouraged to submit questions to LFCHD during the RFP questions period to solicit such additional information as is necessary to adequately estimate the resource commitments that would be expected of LFCHD during implementation, and post go-live for ongoing support of the system(s). Additional resource planning will be performed based upon the selected Respondent(s).
- 2.5.3 Respondents shall clearly indicate in the proposal responses the estimated level of LFCHD resource involvement in the implementation process, in order to allow LFCHD to perform adequate planning. LFCHD will utilize the response to Respondents' Resource Hour Estimates in Tab 3 – Project Approach and Implementation Methodology, of Proposals as an input into the staffing plan LFCHD develops, and requests that Respondents clearly articulate estimated staffing considerations in their responses.

2.6 Deployment Model

- 2.6.1 LFCHD is open to considering various deployment models, and has structured the RFP to allow for the evaluation of the deployment model as but one factor in the overall procurement process. LFCHD wishes to evaluate the greatest range of marketplace offerings feasible through this process.
- 2.6.2 LFCHD recognizes there are many factors contributing to a comparison of cost Proposals for these various deployment methods including needed infrastructure and/or hardware costs, the potential for reduced hardware and support costs in hosted/SaaS models, a particular Respondent's approach to managing upgrades, and technical staffing needs. LFCHD has a preference toward a Software as a Service (SaaS) deployment model, but also wishes to evaluate the greatest range of available solutions, LFCHD is open to considering all deployment models in light of the breadth of functionality and available solutions in the marketplace to address those functional areas. LFCHD will consider, in no particular order, the following deployment models:
- 2.6.2.1 On Premise (locally hosted at LFCHD, perpetual licenses)
- 2.6.2.2 Software as a Service (SaaS or subscription-based models)
- 2.6.2.3 Respondent hosted (hosted and managed by the Respondent, perpetual licenses)
- 2.6.3 Cost sheets have been provided under Attachment B – Cost Worksheets for pricing each of the deployment models.
- 2.6.4 This solicitation is not a bid process nor will it follow a lowest-priced responsive Proposal process, but will be based on most advantageous Proposal(s) utilizing the Evaluation Criteria

listed in the RFP, including the review of life cycle costs (i.e., recurring costs, hardware, third-party licenses, etc.).

- 2.6.5 In developing proposals, Respondents shall clearly define the proposed deployment model including the licensing model as well as any perceived benefits of the proposed model. In the event two or more products are proposed under the same proposal (e.g. through a partnership or offered by the same company) the Respondent shall clearly indicate in both the technical proposal (Tab 2) and cost proposal (Attachment B) the deployment model for each proposed software product.
- 2.6.6 LFCHD does not have a preference as to a specific hosting location, but does have a requirement toward the hosting being within the contiguous United States. Vendors are requested to specify the hosting location in proposal responses, specifically as part of Tab 9 to proposal responses (please see the Tab Forms for further instruction).

2.7 Number of Users

- 2.7.1 The following user counts by module contained in the table below are estimates and are provided for planning purposes only. The number of users represents the anticipated future number of users of a new system.

Table 2-04: Number of Users

Number of Users
Named Users: This category of users includes those a dedicated license assigned per user/staff member. It is anticipated that in total, there will between 75-100 total named users in a future systems environment – across all functional areas.
Concurrent Users: This category of users includes unnamed license seats – in other words, how many people are expected to be accessing the system/module at the same time. This is in contrast to named users who have dedicated licenses tied to a unique login/user ID. It is anticipated that in total, there will between 50-75 concurrent users in a future systems environment – across all functional areas.

2.8 Potential Phasing and Target Live Dates

- 2.8.1 LFCHD requests that Respondents provide potential phase start and target go-live dates in proposal responses per the Tab Forms, Tab 5. These dates should be estimates based on anticipated resource requirements and dependencies between functional areas. These dates are subject to negotiation. LFCHD anticipates that implementation activities would begin no more than 2 months after awarded contract. LFCHD would like to target 4 months after implementation activities begin as a potential go-live.

2.9 Current Applications Environment

- 2.9.1 Custom Data Processing (CDP) is the primary application that support LFCHD needs. CDP is a state system used for documentation, scheduling and billing and it is used to administer our WIC (Women Infant, and Children's) Program. Interface with the WIC portion is critical. Immunizations are managed by the Kentucky Immunization Registry. Depending on the type of lab order, they will be processed through Outreach for Hepatitis C, LabCorp, and Quest. Connectivity to the Kentucky Health Information Exchange (KHIE) is critical.

Table 2-05: Current EHR Functions

Functional Areas			
1	Scheduling	4	Clinical Documentation
2	Reporting	5	Immunizations
3	Medication and Lab Order Management	6	Billing and Accounts Receivable

2.9.2 LFCHD also uses a wide variety of applications to provide capability and functionality in specialized areas. Identification of any potential future system interfaces is provided in Attachment A to this RFP.

2.10 Project Management Documentation

2.10.1 The following information establishes the expectation of the minimum level of project management documentation to be provided by Respondents as a part of, but not exclusively, the resulting implementation services offered. As part of the implementation scope, following signing of a contract, the selected Contractor(s) shall develop and provide LFCHD with the following items:

2.10.1.1 Project Management Plan: a detailed Implementation Project Plan that, at a minimum, includes the following:

- 2.10.1.1.1 Objectives
- 2.10.1.1.2 Deliverables and Milestones
- 2.10.1.1.3 Project Schedule
- 2.10.1.1.4 Resource Management Processes
- 2.10.1.1.5 Scope Management Processes
- 2.10.1.1.6 Schedule Management Processes
- 2.10.1.1.7 Risk Management Processes
- 2.10.1.1.8 Quality Management Approach

- 2.10.1.1.9 Communication Management Approach
- 2.10.1.1.10 Organizational Change Management Approach
- 2.10.1.1.11 Status Reporting

2.10.1.2 Data Conversion Plan

2.10.1.3 Training Plan

2.10.1.5 Testing and Quality Assurance Plan

2.10.1.6 Pre- and Post-Implementation Support Plan

2.10.1.7 System Documentation

2.10.1.8 Risk Register

2.10.2 Additional documentation about each Plan may be found in the Tab Forms, Tab 3, attached to this RFP.

2.11 Budget

- 2.11.1 LFCHD is committed to fully funding the one-time and recurring annual costs for the acquisition of the software (whether a licensed model or a subscription model is selected as a result of this process). LFCHD intends to use the proposals received through this process to inform the budget development process. Recognizing the cost and payment differences between deployment models, a final budget will be developed based on the results of this RFP and final contract negotiations.
- 2.11.2 LFCHD is sensitive to the total costs, and has listed cost as one of the several evaluation criteria in the RFP; however, this is not an opportunity to identify the lowest priced solution. This RFP opportunity is being presented as a best value solicitation, and not a lowest priced bid, opportunity.

2.12 Personnel

- 2.12.1 All of Contractor's personnel providing goods and services under the contract shall possess the necessary skills, experience, and knowledge, to perform their assigned duties. In the event assigned personnel are providing non-conforming or unsuitable services, LFCHD shall notify Contractor and provide the opportunity to rectify the deficiency. If unable to cure the nonconforming services, Contractor shall remove from the project and replace the Contractor's personnel that LFCHD deems unsuitable for the project with a resource possessing the necessary skills, experience, and knowledge, to perform their assigned duties in a satisfactory manner.

2.13 Software Upgrades

- 2.13.1 LFCHD shall be entitled to any and all upgraded versions of the software covered in the contract that becomes available from the Contractor. Such upgrades shall be provided at no cost to LFCHD so long as a valid maintenance and support agreement, or if applicable software as a service licensing agreement, is in place. The proposed software shall remain compliant with applicable current and future State and Federal laws/regulations/policies, with any such legislative changes being provided through an upgrade/update within twelve (12) months of the effective date of the legislation – subject to LFCHD having a current maintenance/support/subscription agreement then in-force.

2.14 Performance Review

- 2.14.1 The Respondent may be required to meet with LFCHD’s Project Manager not less than once per 30 days to conduct a performance review of the Respondent. These meetings will be either in person at LFCHD offices, or via teleconference or web-conference. This performance review will include a review of the pricing, delivery performance, customer service, and improving operational efficiencies

2.15 Prequalification of Vendors

- 2.15.1 LFCHD has not employed a prequalification process. No Vendors are either prequalified or precluded from responding to this RFP.

2.16 Technical Proposal Organization Guidelines

- 2.16.1 Respondents are instructed to upload each Tab individually and include any, all and only information that pertains to that tab. Proposers are requested to provide complementary narrative information, diagrams, and images to help substantiate and support their proposal response to each Tab section.

2.17.1.2 A narrative description of the proposed costs in response to **Attachment C – Cost Narrative**, including: the vendors pricing as provided in vendor’s standard quoting/pricing format, and the vendor’s standard travel and expense policy.

SECTION 3

EVALUATION CRITERIA

3.1 Evaluation Process

After receipt of proposals LFCHD shall evaluate all responses based on the criteria below. During that evaluation, LFCHD shall rank all responses, again based on the criteria described below. Once the RFP Responses are ranked, LFCHD shall determine in writing which responses are reasonably expectable of being awarded the work. LFCHD shall thereafter conduct negotiations with each of those “reasonably expectable” respondents, unless LFCHD concludes that an award may be made without negotiations, as allowed by KRS 45A.370 (3).

LFCHD will conduct a multi-stage process for selecting proposals that are determined to be reasonably expectable to award.

Stage 1

The RFP evaluation committee shall score all proposals based upon the evaluation criteria detailed herein as well as any preferences authorized in this RFP. Upon completion of the scoring, the committee shall recommend short-listing the proposals that are reasonably expectable of being awarded.

Stage 2

Respondents whose proposals have been identified as reasonably expectable to award may be invited to discuss their proposal and provide software demonstrations with the RFP evaluation committee. The evaluation Committee members will view the demonstrations, and additional LFCHD staff may also be in attendance to observe and provide informal feedback.

The committee may carry out contract negotiations for the purpose of obtaining best and final offers, terms, and conduct detailed reference checks on the short-listed vendors. The reference process may include teleconference meetings, web conferences, and in-person meetings with references. The committee reserves the right to conduct reference checks at any point in the evaluation process, and to contact other known users of the proposed system(s) beyond just those references provided. LFCHD reserves the right to contact respondents with requests for clarification. Failure of a Respondent to respond to such a request for additional information, clarification, or system demonstrations may result in rejection of the Proposal. The initial evaluation may be adjusted because of a clarification under this section.

LFCHD reserves the right to deviate from this evaluation process at its own discretion, and to (i) negotiate any and all elements of the RFP, (ii) amend, modify, or withdraw the RFP, (iii) revise any requirements under the RFP, (iv) require supplemental statements of information from any Respondent, (v) extend the deadline for submission of Proposals, (vi) cancel, in whole or part, this RFP if the LFCHD deems it is in its best interest to do so, (vii) request additional information or clarification of information provided in any Proposal without changing the terms of the RFP, (viii) award this project in whole or in part to a vendor other than the highest scoring vendor based on the determination of the best overall value and/or fit for LFCHD, and/or (ix) waive any portion of the selection process in order to accelerate the selection and negotiation with the top-ranked Respondent.

Award

There exists the possibility that an award may be made on the basis of initial offers if it can be clearly demonstrated and documented from the existence of adequate competition or accurate prior cost experience that acceptance of an initial offer without discussion (Stage 2) would result in fair and

reasonable prices (KRS 45A.370(3)(c)).

Award will be made to the responsible Respondent whose proposal is determined in writing to be the most advantageous to LFCHD based upon the evaluation factors set forth in this RFP.

3.2 Evaluation Criteria

The Proposals received pursuant to this **Request for Proposals** will be evaluated on the following selection criteria:

3.2.1 Short-List Identification: LFCHD intends to utilize the criteria presented in Table 3-01 following the Evaluation Team's review of Proposals. Each Proposal will be eligible to be awarded up to 100 points at this stage.
